Supplemental Application

Please complete the following application. Your reply may exceed the space provided; attach additional sheets as needed. If you wish, you may use a computer to prepare the application; simply recreate the outline and submit the computer generated form with answers in place of the handwritten form provided.

1. Introduction:

Mr. Taylor currently owns 1.7 acres of land with an ~~exist~~ existing home on the property. Please verify the ~~suab~~ suitability of the property in question for the uses permitted under the existing zoning ~~and~~ classification. I was unaware of the R-1 zoning and couldn't rewire without doing a zoning change.

2. Reason for Amendment:

Amendment to existing zoning classification is being requested, from an R-1 to R-2 zoning in order to rewire an existing manufactured home on property. By changing from R-1 to R-2 is only way to rewire my home. One single family dwelling

3. Findings of the Planning Commission:

906.02.06a. The consistency of the proposed amendment with the goals and objectives of the Comprehensive Plan of Harrison County, Mississippi.

The property will remain residential since the existing home will remain and the lot size will not change. Since R-1 is only for stick built homes it requires for a zoning change to R-2 with a conditional use to keep existing manufactured home.

906.02.06b. Existing uses of property within the general area of the property in question.

Residential use only. No changes. There are large tracts of Agricultural land, E-P zoning which contain 3 ACRES or more. R-1 zoning for single family Residential. Also R-2 to south of my property.

906.02.06c. The zoning classification of property within the general area of the property in question.

The zoning classification currently in place will not change. The property will continue to be used as a residence.

The surrounding properties are also residential. zoned R-1, R-2, E-1, and A1 farm lands.

906.02.06d. The suitability of the property in question for the uses permitted under the existing zoning classification.

Since property is zoned R-1, I have to change zoning to R-2 in order to keep my existing manufactured. because it has been w/out power for more than one year. I bought property and didnt know I could not repower with going thru w/ this zoning change.

906.02.06e. The trend of development, if any, in the general area of the property in question, including changes, which have taken place in its zoning classification.

The trend in the area is less or more, with several R-1, E-1 and large tracts of A-1 farm lands.

Conditional Use Permit
Supplemental Application

1. Introduction:

Michael R. Taylor recently purchased 1.7 acres of land with an existing mobile home on the property located at 17353 Shaw Rd. Gulfport, MS 39603. There has not been any changes to the existing zoning classification nor are there any plans to do so in the distant future. My intentions are to occupy the residents while improving the esthetics and quality of the ~~the~~ home and surrounding property. I am submitting this conditional use permit as requested by the Harrison County Zoning Administration in order to obtain basic water and electric utility services. There are no special circumstances affecting this request that I am currently aware of.

2. Required findings of the Planning Commission:

904.02.01(a) The subject use is necessary to promote the public interest at the location proposed,

The neighbours can attest to the improvements that I have made to the home and land since obtaining the deed. There are adjacent properties with water and power that are in worse shape.

904.02.01(b) The subject use is designed, located and proposed to be operated in a manner that public safety, health and welfare are protected,

The mobile home and property will meet all code standards to insure the public safety, welfare, and health are protected.

904.02.01(c) The subject use will not cause substantial injury to the other property in the neighborhood in which it is located,

Residential uses are among the least intrusive in the zoning ordinance.

Mr. Taylor is making major improvements to enhance both the home and site.

904.02.01(d) The subject use conforms to all district regulations for the district in which it is located unless other provisions are specifically set forth in the application and

There has been no major changes to the existing home or site so the property should still conform to all district regulations.

904.02.01(e) That the proposed use or development of the land will be in harmony with the scale, bulk, coverage, density, and character of the area or neighborhood in which it is located.

The community in which the area is located is considered rural and not currently being developed.
